ISCOR AI - Screening Report

Risk Level: High (90% confidence)

Probabilities: Low 6% | Moderate 4% | High 90%

Top Driving Factors

(+) Academic Pressure (Higher than 85% of similar students)

Decreasing your Academic Pressure is associated with a lower predicted risk.

(+) St

Decreasing your Stress Index is associated with a lower predicted risk.

(-) Ac

Maintaining or increasing your Academic Load helps protect against higher risk.

(+) St

Decreasing your Study Hours is associated with a lower predicted risk.

Explanation

Important: Please Seek Support

The screening tool has identified indicators that suggest you may be experiencing significant distress right now.

This is not a diagnosis, but based on your responses, we strongly encourage you to speak with a mental health professional or crisis support service as soon as possible.

Immediate Support Resources:

- iCall (India): 9152987821 - Mon-Sat, 8am-10pm
- Vandrevala Foundation Helpline: 1860-2662-345 (24/7)
- AASRA (India): +91 22 2754 6669 (24/7)
- International Association for Suicide Prevention: https://www.iasp.info/resources/Crisis_Centres/

Please remember:
- You are not alone.
- Professional support is available and effective.
- This tool is a screening aid only - a qualified professional can give you real, personalised help.

If you are in immediate danger, please contact emergency services or go to your nearest hospital emergency room.
